BEAUTY GROWS AT ARP

PINK FROST Pat. 1269

An Arp rose introduction, this huge hybrid tea show type is rapidly gaining favor for its extreme fragrance, heavy growth, sturdy neck, attractive color blends. Pink Frost is a great rose by all standards.

DIRECT-TO-GARDEN SHIPPING ORDERS INVITED
SHIPMENTS FROM ARP REFRIGERATION OCTOBER 15 'TIL MAY 1

Queen Kay Howard and her court will lead the southwest's extravagant Texas Rose Festival at Tyler, Oct. 17-20, 1957.

Open garden, celebrating first spring bloom at Arp Nursery Company, Tyler, introduced 3,000 guests to 55 newer rose varieties.

Lemon Chiffon, the Yellow Rose of Texas, was beautifully introduced with Sakowitz's Houston fashions (all lemon) by 1955 Festival queen.

Lemon Chiffon fashions compliment the model and the mannequin. The fragrant, prolific yellow rose boasts brilliant lasting color.

Cost Each \$1.15

Case of 20 \$23.00

Varieties PAPERSHELL PECANS

BURKETT. A favorite of West Texas, introduced by J. H. Burkett of Clyde. Size large, shell thin, kernel plump, flavor excellent. Is one of the most popular varieties. Runs 40 nuts per pound and 55% kernel. Very healthy, regular bearer.

DELMAS. From Jackson County, Mississippi. Widely disseminated, size large, shell medium thin, kernel plump, quality good. Runs 45 nuts per pound and 48% kernel. Scabs in damper localities. Heavy bearing, vigorous, beautifully shaped tree.

MAHAN. The Giant Pecan—originated in Mississippi. Largest nut, thinnest shell, and bears when very young. May not last as long or fill as well as other pecans in some localities but is highly valued in others.

MOORE. From Jefferson County, Florida. Runs 67 nuts per pound and 49% kernel. Usually prolific and one of the best commercial varieties for East. Fast growing, early maturing, medium size, thin shell.

MONEYMAKER. From Madison Parish, Louisiana. Runs 51 nuts per pound and 46% kernel. Widely disseminated; size medium. Recommended only for eastern portions of the country. Nut, well filled with rich meat, is easily cracked. Upright grower, beautiful foliage. Early and prolific.

SCHLEY. Thrifty, vigorous, "Eastern" tree originated in Jackson County, Mississippi. Long, medium to large, thin-shell nuts run 47 per pound, 61% kernel, full and plump, and richly flavored. This old, widely disseminated variety, said to be a Stuart Seedling, is only average bearer, but commands top market price. A very high-class pecan.

STUART. Most widely disseminated, grown farther north than most varieties. A large, strong tree, well shaped, also originated in Jackson County, Mississippi. Good quality large nuts run 55 per pound, 44% kernel, mediumthin shell. The old and well-known papershell pecan.

SUCCESS. Large oblong nuts with thin shells and partitions, runs 37 per pound and 52% kernel. Full, sweet flavored, yellow, excellent quality. Strong grower, regular, heavy bearer from Stuart and Schley territory, widely used and one of the most valuable Eastern varieties.

TEXAS PROLIFIC. (Sometimes called Sovereign.) Introduced by E. E. Risien, San Saba, Texas. Runs 48 nuts per pound and 54% kernel. Very prolific and widely disseminated in Texas. A very popular variety. Medium thick shell, rich kernel; heavy, early bearer, and fast growing tree.

WESTERN SCHLEY. Introduced by Guy Risien, San Saba, Texas. Runs 59 nuts per pound and 60% kernel. Thin shell and good cracking quality. Resembles the Eastern Schley very much, but probably more valuable for Texas. Very prolific and seems to do well over a wide area.

Root-Packaged Pecan Trees are uniformly, beautifully contained in colorful green waterproof bag. Tempting pecan nuts in two shades of brown are spotted over this modern package. Nursery and Garden department tree sales in pecan territory will surely be stimulated when these clean, neat, dormant Arp Pecans, heavy-bodied and amply rooted, are displayed. Tree and nut illustrations in 4-color process, with planting instructions, appear on every package.

Most important commercial varieties, popular, thrifty sizes of vigorous selected Arp Pecans, famous in nursery business for 36 years, are offered in quantities. Promotional advertising in your community can be worthwhile now.

Pecan is a most desirable tree. Fruitful, shapely, permanent, it affords cooling shade all summer long.

Urge your customers to plant at least a few trees that will outlive their grandchildren—provide tasty nuts for the table and the kitchen while covering the play area or pasture with welcome relief from summer temperatures, year after year, and for so very little money!

From the Gulf of Mexico to Southern Pennsylvania, from the Atlantic to the Panhandle, in grove or landscape project, on boulevard or patio, Pecans from Arp can be important and profitable in your nursery sales.

Shipping season is usually Nov. 1 to March 10.

Freshly dug stock goes into each order. Motor freight line gives cheapest transportation to most Southern points. Truckload distribution can be arranged.

Burlapped case of 10 packaged trees (minimum order) weighs 70 to 90 lbs., depending on size of tree ordered. Trees larger than 5 feet are packed in cases of 8 (minimum order).

Each Plus 50c Per Container, Less Trade Discount: 40%

Your Customers Want Facts

For sales display at room temperature, clear wax properly applied is the best treatment for retaining moisture in rose canes. Other preservatives known and tested are comparatively ineffective wastes of time and money. POLYETHY-LENE HOLDS WELL IN REFRIGERATION. No package protects beyond 3 weeks except at temperatures in midthirties.

TRUCKLOADS DELIVERED AT COST. Group delivery to most convenient distribution point (for LCL freight to destination) if desired will be charged at 3c per bareroot and 6c per packaged rosebush, 4c to 20c per bareroot and 10c to 35c per packaged tree depending on size.

Retail nurseries establish own replacement policy. At wholesale your guarantee is that true varieties of full grade, as represented, will arrive in good condition. Neither storage life nor transplanting results are guaranteed by wholesale grower. Reasonable adjustment on perishable merchandise can only be considered if error or damage is reported promptly on delivery.

R. MULTIFLORA JAPONICA is the understock. Vigorous, fibrous, nematode resistant, Arp's selected strains of Multiflora rose are superior to any understocks with which they've been fairly compared.

PLANT PATENT NOTICE:

The following provisions apply to all patented and trade-marked plants we sell. Each of the plants so indicated is a patented variety under the laws of the United States and any asexual reproduction or distribution by sale, gift or otherwise of scions, buds or cuttings therefrom for such reproduction without license from the patent owners constitutes an infringement of the patent for same. Any unauthorized reproduction, sale or other distribution of reproducing propagating material of these roses prohibited by the patents, under the names and/or trade-marks of the patent owner or any other name or names, will subject the reproducer, seller, or distributors thereof to prosecution for infringement under the United States Patent and Trade-Mark Laws.
